BY explorer motorhomes

Expertly designed
and built in
New Zealand at the
home of Explorer
Motorhomes

The Frontier Backpack is designed
and manufactured in Auckland.

FULL ALUMINIUM BODY

The Backpack is constructed using
an aluminium frame and clad with
aluminium composite material
(ACM) which has a polyethylene
core sandwiched between two
aluminium sheets. It is light in weight
yet exhibits excellent flatness and
stiffness, making it ideal for the
Backpack's body. We add wall and
ceiling insulation between the ACM
skin and interior wall linings for extra
seasonal comfort.

WILL THE FRONTIER BACKPACK FIT YOUR UTE?

The Backpack has been designed
around the Ford Ranger and Mazda
BT50 double cab because we
exclusively use these two models for
our Explorer motorhomes. Backpack
will fit on some other double cab
utes too. If you have an alternative
make, we can let you know if it will be
suitable. We recommend a simple
suspension upgrade to assist with
the increased load on all utes used.

QUALITY, QUALITY, QUALITY

Every Frontier Backpack is built
with the same attention to detail
and quality that we lavish on our
Explorer motorhomes. Quality
is everything to us. We only use
industry-leading components that
we know will last the distance. We
know that your Frontier Backpack
is going to take you to some pretty
exciting places, so everything needs
to work and last.

Frontier Backpack

Turn your workday double cab ute into a holiday
motorhome by simply sliding on a Frontier
Backpack. Slip away into the wilds of New Zealand
knowing you have everything you need to take
time out in comfort.

Frontier Backpack gives you the best
of both worlds; a double cab ute
through the week for work and when
the weekends and holidays roll round,
transform it into your go-anywhere
adventure machine in under 30 minutes.

At 6.2 metres long x 2 metres wide
on the double cab Ford Ranger or
Mazda BT50, Backpack is compact
and easy to drive and park. Stand your
Backpack on it's own legs when you
get where you want to be or keep
it comfortably on the back. Frontier
Backpack gives you more options
than your average motorhome.

Backpack may not be huge but it's
certainly cleverly designed and provides
owners with the necessary comforts.

A great night's sleep is essential when
you're on holiday so the Backpack's
class-leading permanent north-south
bed in the luton is superb. It's bigger
than a double, measuring 1400mm
wide x 2000mm. It's an airy and
generous relaxing and sleeping space
with sitting headroom and easy
step-up access from the couch.

Opening windows at each side of the
bed with built-in insect screens, offer
good views and ventilation.

If you're accommodating four, you
can even convert the rear dinette into
another bed for two.

But you can't sleep for too long; there's
just too much to see and do in our

incredible country. Sit up high in the
comfort of the dinette lounge and take
in the views morning, noon and night.

Backpack's galley features a
combination stainless steel sink with
flush-mounting glass lid, folding hot
and cold tap and 2-burner gas hob.
There's also a 64 litre fridge/freezer
(12V) and enough storage for your
kitchen stores and equipment.

Gas and power from the 150 watt solar
panel mean you've certainly got
everything you need to take care of
yourself wherever you may be.
Efficient LED fittings provide effective
lighting in all areas.

Backpack has fresh water capacity of
70 litres onboard and grey water
capacity of 50 litres using a rollaway
tank. Backpack is Certified Self
Contained too.

We only use high quality lightweight
plywood joinery for the onboard
joinery. The white laminate finish
provides a practical and hard wearing
finish. We don't use MDF laminate
products as they are easily damaged
and swell if they get wet. There's good
storage in the cupboards, bedside
lockers, full-height wardrobe and the
space under the dinette seating.

You won't go without other creature
comforts in this slide-on camper either.
There's a hot/cold single lever tap
shower with extension shower hose
on a slide rail as well as the Thetford
